CRONODOKU 1

Trapped at the Edelweiss

Step-by-step solutions

Each case is solved cell by cell. Every step says where someone was and why it cannot be otherwise: a clue rules it out, the room is already taken at that hour, or the person is already somewhere else. Steps marked *Testing options* or *Supposition* try out a possibility and show that it leads to a contradiction. In the final grid, the shaded cell is the culprit's.

1. **First, the lying witness: clue 11** ("Inspector Garmendia was not in Room 7 at 17:00."). Several clues, by independent routes, force **Insp. Garmendia to be in Room 7 at 17:00**. Clue 11 is the only one that contradicts this: if you accept it, the case has no solution, and if you discard any other clue instead, it has none either.
